# About

- ★ Diamond mine is a resource-rich mine that has just recently been found by a few brave souls.
- ★ The mine stretches thousands of kilometers & you can now rent land and pay miners to mine diamond continuously for you.

# Earn

- Mining

- After everyday of mining you will receive 8% of you initial investments after removing all expenses of it.

- Referral

- You can receive 12% of total investments from your friends once they open a mine.

# Compound

- You can enormously increase your earning by reinvesting your daily rewards on hiring more miners that will continuously get diamonds out of the ground.

# Fees

- **6% fees** on invest and sale of diamonds
- ( 6% owners + 2 % marketing wallet )
- You won't be charged for re-investment of your rewards

# Strategy

- ★A small group of adept miners conceive their most profitable tactics, without ever depleting their miners.
- ★Despite the fact that they each have their own mine, they work as a team.
- ★They re-hire miners six times a week and withdraw profits once a week
- ★ frequent gains may deplete your gains, which will reduce your return on investment in the short and long term.

# FAQ

- **How does Diamond mine work?**

**By depositing your Avax, you will earn 8% daily of your deposited amount, which accumulates throughout the day. Please keep in mind, that your ROI will decrease with each subsequent claim.**

**We commend compounding your rewards for six days and claiming on the seventh day (6/1 approach) to maintain the greatest daily ROI of 8%. The contract includes this technique.**

# FAQ

- **What is the minimum investment?**

- **0.1 AVAX.** If you start with such a small deposit it will take time for your rewards to start displaying on the dApp. It only goes to 2 decimal places.

- **Do you have any anti-whale defenses in place?**

- **The 6/1 strategy is the way to go.** It's not simply a tactic; it's also our anti-whale defense system. It will guarantee that the TVL continues to rise.

- **What is the most effective strategy?**

- **6/1.** Every week, there are six compounds and one withdrawal. Every day, take action. If you become greedy and try to save all of your rewards, your ROI will suffer as well.

# FAQ

- **How long will the contract's rewards be paid out?**

- **There will always be incentives as long as the contract is balanced.**

- **What is it that keeps the developers from rugging?**

- **A: The contract is immutable and audited, which means that once it is deployed, the developers will have no access to it and will be unable to transmit funds out of the wallet.**

- **Can I be too late to deposit my funds?**

- **No, the contract is written to incentivize anyone. However, the impact is just very small. If you can get in early, you should consider doing it and start compounding your stake.**
